

COMMUNITY ASSESSMENT TECHNICAL ADDENDUM

1. Introduction

Purpose of the Technical Addendum

The Technical Addendum is a companion document to the Community Assessment - the second volume of the Comprehensive Master Plan for Plaquemines Parish. The purpose of the Technical Addendum is to provide detailed documentation of the data, analysis, maps and other supportive information used to prepare the Community Assessment.

Like the Community Assessment and the Community Agenda, it is organized by eleven elements numbered as follows:

2. Population and Demographics
3. Economic Development
4. Multi-modal Transportation Systems
5. Water and Wastewater Systems
6. Coastal Protection and Restoration
7. Drainage and Stormwater Management Facilities
8. Public Facilities and Services
9. Parks and Recreation Facilities and Services
10. Land Use
11. Government Structure
12. Parish-owned Properties
